

TRJS Whole School Afternoon Activities: Monday 15th- Friday 19th June

Your choice of Playful Projects for the week.

- Choose one and work on it all week; OR
- Choose a few to have a go at on different days.

SCIENCE: Life Lessons

Use this link <https://www.bbc.co.uk/teach/class-clips-video/science-ks2--ks3-life-lessons/zjtnd6f>. There are a selection of video clips, which introduce key concepts in biology, focusing on the seven important lessons from the natural world with beautiful wildlife footage.

1. How animals have adapted
2. Classification of organisms
3. the lifecycles of different organisms
4. How plants and animals reproduce
5. Food chains and food webs in animals
6. The connections within ecosystems
7. Human impact on the environment

Have fun exploring each concepts. What interesting facts did you find out?

PE: Invent your own sport!

Watch clips of different sports being played. What equipment is used? Are the rules easy to follow? How do you know who is winning? Is it a team sport or an individual sport? Could it be improved? Now to get creative! You can either adapt and change a sport that you already know, or you could invent a completely new one! You could:

- Design any equipment that needs to be used
- Write a rule book for the sport
- Create a video of the sport in action
- Create a PowerPoint to explain your sport to people who haven't seen it
- Design kits for the teams/individuals to wear
- Create team names and logos

ART: Gallery of South and Central American Art

Explore the work of South American artists: Frida Khalo, Joaquin Torres Garcia, Leonora Carrington, Diego Rivera, Beatriz Milhazes and Carlos Paez Vilaro.

Did you know that many artists go to museums and galleries for inspiration? Now it is your turn to be an artist. You could adapt or change some of the art work you have seen of the South American artists. You could:

- Make picture puzzles using symbols; make dream catchers; create a collage
- Draw an important person; make traditional drums to create quality artwork
- Create a name and logo for your Art Gallery; make frames for your artwork with wooden pegs, buttons, lolly sticks, wool or coloured card or paper.

Share your exhibit with friends and family over Zoom or Facetime.

MUSIC: Relax and Explore

Have you ever wondered how instruments work? Join Fran and Greg on the link below, to see how instruments make their sound. Explore the science of sound waves through a series of fun experiments which you will find on: [bbc.co.uk/teach/class-clips-video/music--science-ks2-house-of-sound/zncr7nb](https://www.bbc.co.uk/teach/class-clips-video/music--science-ks2-house-of-sound/zncr7nb)

Fancy a sing along to lift your mood? There are hundreds of feel good songs with lyrics which you can sing along to on [singup.org/singupathome](https://www.singup.org/singupathome). You might like to make a musical instrument using the guide from the website for a little inspiration.

Monday

Health, Safety and Wellbeing

British Red Cross: First Aid Champions - go to <https://firstaidchampions.redcross.org.uk/primary/first-aid-skills/>. Scroll down the page to choose from these eight First Aid skills. Read the information and watch the videos to learn how you can help others.

Tuesday

Magic Drawing - watch the following video and then have a go yourself! [youtube.com/watch?v=8yqX2PBXJX4](https://www.youtube.com/watch?v=8yqX2PBXJX4)

Wednesday

Ice Eggs - Have a go at making some stunning flower ice eggs - just follow the steps in these pictures for how! You can be as imaginative as your like with what you put in them.

Thursday

Natural Art /Leafy Teachers - Go to Woodland trust site: www.woodlandtrust.org.uk/blog/2020/03/kids-nature-activities-self-isolation/ and look at number 4 on the list. On your daily walk, collect a selection of leaves from different trees. How many different types can you find? Use the leaf identification sheet to help. Now, with your leaves and coloured pencils/pens and glue, can you create a portrait of one of your teachers?! We'd love to see your photos!

Friday

Bubble Snake - You're never too old to have fun with bubbles! Try making a rainbow snake. You will need:

- Old plastic drinks bottle
- Old sock
- Sellotape or elastic band
- 2 or 3 unbreakable bowls
- Washing up liquid
- Water
- Food colouring if available

Follow the tutorial in this video <https://youtu.be/uw-LqKkPCOU> or look at the pictures on <http://www.housingaforest.com/rainbow-bubble-snakes/>
