

The Ultimate Jungle Survival Guide

11 To survive in the jungle, one of the world's harshest and
19 most inhospitable places, your two priorities are clear:
29 water and shelter. Without these, you won't make it a
31 single night.

41 Deep within the jungle, sources of fresh water are hard
53 to come by. Keep an eye out for any fallen leaves which
62 have caught pools of rainwater and drink them straight
74 away. You need to drink around 10 litres of water a day
81 to stay alive in this raging heat.

91 Before darkness falls, build a shelter high up off the
99 ground to avoid tigers and other predators overnight.
108 Banana leaves make an excellent shelter from the rain
116 and vines will hold together your hammock whilst
118 you sleep.
