

Shadow Investigation

1. What question are you investigating?

2. How will you investigate this question?

First,

Then,

Finally,

3. What equipment will you need for your investigation?

- ---
- ---
- ---
- ---
- ---

4. Results.

Distance between light source and object.	Length of shadow
<hr/>	<hr/>
<hr/>	<hr/>
<hr/>	<hr/>
<hr/>	<hr/>
<hr/>	<hr/>

5. Does moving the light source further away from the object make the object's shadow longer? Explain your answer using your findings.
